Dr. Roethig,

I am sorry for the delay in getting this agenda for you. We have been meeting internally in preparation for your visit and are looking forward to meething you and Dr. Lau.

We would like to start the day tomorrow with an outline from you regarding your objectives for the visit and the study design we have discussed. I have passed on the notes to our conversations to those on the agenda in order to make this meeting as productive as possible and targeted to you needs.

I will pick you up at the airport at 10:35 and Gene will get you to the airport following dinner tomorrow evening.

Looking forward to meeting you,
Julie Saathoff
